- Safety Improvements

# Facilities Planning

## 2015 Long-Range Facilities Planning Committee:

- Toured facilities
- Assessed building capacity and utilization
- Evaluated building conditions and systems
- Studied future growth for the District
- Committee's work resulted in several recommendations to the Board of Education

# Long-Range Facilities Plan: Summary of Recommendations

1. Accept the District-wide Facility Study to assist in making future decisions.
2. Adopt the following category-specific recommendations as guidelines for Phase 2:
  - Grade Level Configuration
  - Building Capacity and Utilization
  - Capital Maintenance
  - District Owned Property
  - Athletics & Co-curriculars
3. Proceed to Phase 2 and engage architectural and construction management firms to support the LRFPC and implement the above recommendations.

# Phase 2 of Facilities Planning – District Planning Data Collection

- Examination and understanding of the District community, as well as anticipation of present and future community expectations.
- Understanding of present and future school and community growth.
- Planning and potential construction needs to increase the school capacity effectively as enrollment increases.
- Proposal and presentation of a cost effective comprehensive school district architectural plan to optimize the current and future needs of students and the community.
- Assist the District in defining and clarifying its corresponding building needs, defining the scope of the needed construction over a detailed timeline and solving architectural problems in an effective manner.
- Assist in the leadership and planning of stakeholder groups and other community groups.

# Facilities Advisory Committee

(Approved by BOE 8/23/17)

## Charge of Committee:

- Review background information, including:
  - MGSD mission and vision;
  - MGSD program and curriculum drivers and future goals;
  - 2015 Long Range Facilities Planning Committee recommendations;
  - Capital maintenance and infrastructure needs, and;
  - District enrollment projections and building capacity data.
- Analyze facilities options and reach committee consensus on a recommendation about which option(s) best meets the district's current and future capacity, capital maintenance and learning environment needs.

# Facilities Advisory Committee (cont.)

(Approved by BOE 8/23/17)

- Assess the costs and potential tax impact of the facilities options. Recommended preliminary option(s) prior to a community-wide survey.
- Report monthly to the Board on committee progress/actions.
- Prepare a final advisory statement for the Board summarizing the Committee's work, describing its recommended course of action, and specifying why alternative facilities options are less viable.

# Facilities Advisory Committee Timeline

- The Committee will convene in October, 2017.
- The Committee will prepare preliminary recommendations by January, 2018 in preparation for a community-wide survey and a final recommendation for the Board by no later than June, 2018.

# Public School Funding

- The majority of school district revenue is obtained through two sources:
  - Equalization Aid
  - Local property taxes
- These are counterbalancing forces – as state aid goes down, local property tax increases. Revenue limit caps the amount of funds that can be generated from these sources through a state calculation largely based on resident student enrollment.

# Revenue Limits

- Established by the Legislature in 1993 presumably to help control property taxes
- Establishes the maximum amount of revenue that a district may raise through general state aid and the property tax levy
- Fluctuates with changes in enrollment, debt and state aid
- Revenue limit increased by \$0.00 per resident student

# Revenue Limits Per Pupil Amount

# Equalization and Per Pupil Aid

## Equalization Aid

- The amount of Equalization Aid a District receives is dependent upon the State Aid formula
- There are three tiers to the aid formula:
  - Primary, Secondary and Tertiary
- Districts with a high equalized value per pupil are considered “property rich” and receive negative tertiary aid (total aid is reduced by the amount of negative tertiary aid.)
- Equalization Aid reduces the District tax levy
- Estimated increase of \$826,542

## Per Pupil Aid

- Per Pupil Aid (new over the last two state budgets)
  - 2016-2017 - \$250 per pupil
  - 2017-2018 - \$450 per pupil (additional revenue of \$619,200)

# Historical View of Equalization Aid

# 2017-2018 Budget Overview

- The Budgeting Process began back in January 2017
- “Zero-Based” Budgeting Process
- Passage of \$2.6 million Operational Referendum (Year 2)
- Per Pupil Aid Increase of \$200
- Balanced Budget
- Proposing a Total Tax Levy of \$27,371,132

# Approval of a Resolution Authorizing Site Acquisition and Designating Said Site for Potential School District Buildings

# Proposed Land Purchase Information

## Background

- On September 13<sup>th</sup>, the Monona Grove Board of Education voted unanimously to seek approval at the District's Annual Meeting for authority to purchase approximately 40 acres of land adjacent to Glacial Drumlin Middle School in Cottage Grove.

## Property Location:

- 4490 Buss Road,  
Cottage Grove, WI

# Proposed Land Purchase Information

## Why is the Board asking for authority to purchase land?

- Monona Grove is a rapidly growing school district and this growth is projected to continue well into the future. Continued enrollment growth means District schools are projected to soon reach or exceed their capacities.
- Enrollment has increased by nearly 300 students from 2012-13 and 2017-18. The District currently enrolls almost 3,500 students. *District enrollment is projected to increase by more than 750 students between 2017-18 and 2030-31.*
- Earlier in 2017, the urban planning firm Vandewalle & Associates completed a study of enrollment patterns and housing development plans within the District. Vandewalle projects District enrollment will grow 13% by 2020-21 and an *additional* 9% by 2030. Much of the projected enrollment growth is expected to be concentrated in the Cottage Grove area.

## Why now?

- Enrollment projections show several District facilities will soon be at or near capacity. Recognizing this emerging school capacity concern, the District is expanding its facilities planning options by proposing to secure additional land.
- In addition, the land proposed for purchase is located adjacent to Glacial Drumlin Middle School. The proximity of the land to an existing District facility makes it a unique opportunity.

# Current Enrollment Trend

# Enrollment Projection

# Land Purchase Cost

## How much will the land cost?

- The proposed purchase price is \$1.6 million for approximately 40 acres, or about \$40,000 per acre.

## Will the land purchase impact the district's tax rate?

- The District is proposing to use short-term borrowing in Fund 38 (Non-Referendum Debt) to finance the purchase of the land. The short-term borrowing will have no impact on the district tax rate unless the voters of the Monona Grove School District approve a referendum in the future to pay off the short-term borrowing used to purchase the land, if needed.

## Will the proposed land purchase impact funding devoted to the classroom?

- It is the intent of the District that funding devoted to classroom will not be impacted by the purchase. The District will finance the land purchase through short-term borrowing in Fund 38 (Non-Referendum Debt). The short-term borrowing will allow the District to examine multiple options to pay for the land purchase.

–Such as:

- Selling Property currently identified by the Long-Range Facilities Committee that is not useable by the district
- Utilize funds from a upcoming TID District closing
- Referendum

# Land Purchase Financing

## Overview of Financing:

- The District is proposing to short-term borrow, which will have not impact on the district tax rate
- We looked at two options:
  - Short-Term Borrowing from the State Trust Fund
    - Principal and Interest Payment of \$212,287
  - Short-Term Borrowing via Note Anticipation Notes (Going to the Market) (Recommended)
    - Interest Payment of \$23,907 in 2017-2018
    - Interest Payment of \$26,400 in 2018-2019
- If authorization is granted at the Annual Meeting, the Board of Education at their next Board of Education meeting (October 11<sup>th</sup>, 2017) – will need to approve an resolution to beginning the financing process
