

Mac OS X - How to use Apple TV

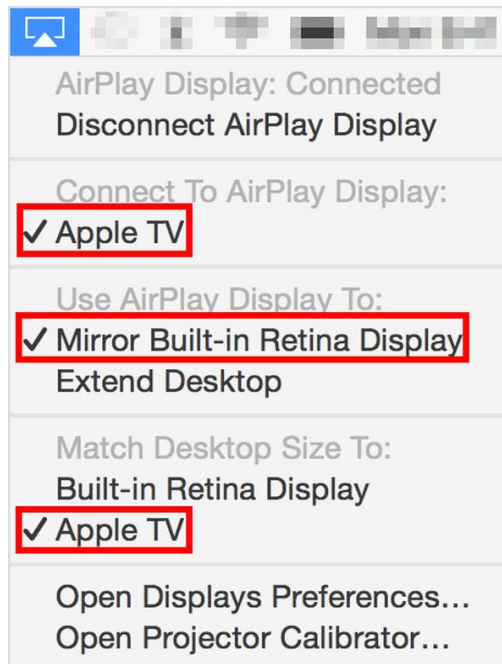

1. In the top right of your screen, select the AirPlay icon

2. From the drop down menu that appears, choose the Apple TV you would like to use

3. Once connected, you will have some options on how to display your screen. Select that you want to mirror your display and for the size to match up to the Apple TV

4. When you are done showing your screen, select 'Disconnect AirPlay Display' at the top of the drop down menu
