

Safe Schools Affirmation of Allyship Message

The Monona Grove School District believes that diversity is central to our strength. We value the diverse community in which we live, learn, work and play. MGSD will not waiver in our unequivocal support for the protection and continuation of education for all students and families, including those with historically disadvantaged and/or marginalized identities. All students, families, and staff are important members of our community and we will continue to cultivate an environment of acceptance, support and kindness for all. It is our goal to create safe and supportive environments for our students, families, and employees of all racial and ethnic backgrounds, religious beliefs, sexual orientations, gender identities, ability and immigrant statuses. The District will not share information or provide access to students unless required by law, and will protect students' constitutional and legal rights including its practice of not collecting or maintaining any information about students' immigration status. We will continue to do everything within our power to protect students' confidential information and ensure students' learning environments are not disrupted.

We strive to create conditions that allow all to reach their full potential. This statement does not represent a policy change, but affirms clearly our desire to continue to provide a safe learning environment for all.
