

# DESIGN & CONSTRUCTION UPDATE

March 2021

## GREAT PROGRESS AT GRANITE RIDGE!

Much has changed at the new Granite Ridge School over the last few months. Crews have been working hard on all areas of the building and are installing interior finishes in some areas. The school design incorporates themes from different habitats: woodlands, wetlands, and grasslands. The finishes reflect these themes through bright colors and textures. Classrooms have sliding glass doors that open up into the large collaboration spaces. There are also sliding doors in the walls that separate the classrooms that can be opened to create large learning spaces for co-teaching opportunities.

The building is officially completely enclosed with brick going up on the exterior walls. The crew will continue with the exterior as well as completing interior finishes. The building is on schedule for substantial completion on July 14 with furniture starting to be moved in the following week. If you haven't driven past the site lately, check out photos from our drone flights on our [website](#).

### Important Dates

#### RENOVATIONS

**Construction**  
May 2019 - Aug. 2021

#### GRANITE RIDGE SCHOOL

**Construction**  
Apr. 2020 - Aug. 2021

**Opens**  
FALL 2021

# DESIGN & CONSTRUCTION UPDATE

March 2021

## OTHER DISTRICT PROJECTS

### Winnequah School & Glacial Drumlin School

Renovated spaces at Winnequah School and Glacial Drumlin School (GDS) are getting rave reviews from students and staff! GDS has an expanded cafeteria area while Winnequah had renovations to the IMC, art room, and some classrooms.

Makerspace at Winnequah

IMC at Winnequah

Cafeteria at Glacial Drumlin

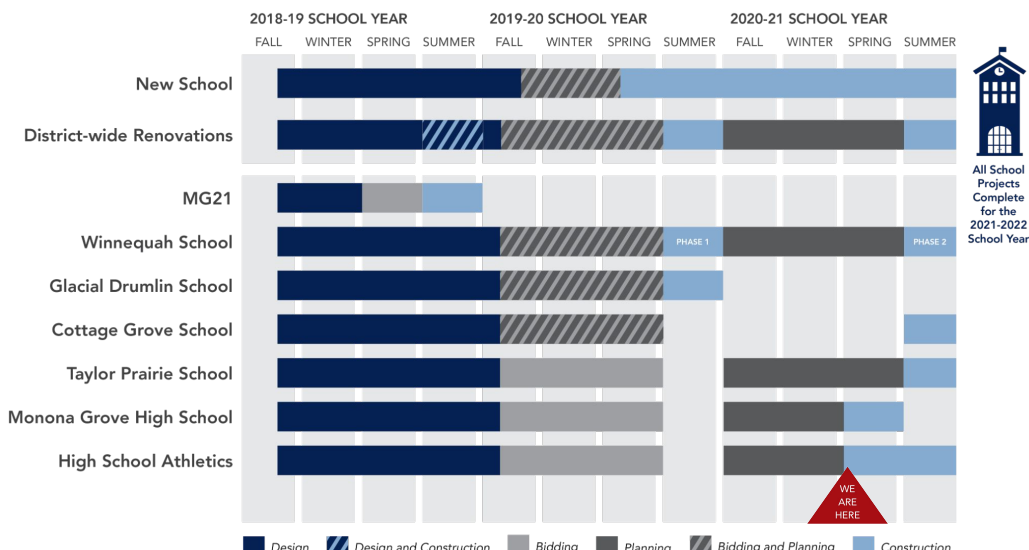

Classroom at Winnequah

### Coming Up

Projects at the High School have started, including work on the athletic field that will be completed by the end of summer. Also happening this summer is work at Cottage Grove School, Taylor Prairie School and phase 2 of Winnequah School.
